MEMORANDUM FOR: Deputy Director for Administration

SUBJECT : Presidential Executive Order dated
18 February 1976 entitled "U.S.
Foreign Intelligence Activities"

This will certify that I have read and understand the provisions of the subject Executive Order and, although I interpose no objection to its contents, I assume that the Agency will continue to maintain the right to enter into classified arrangements with other U.S. Government departments and agencies in furtherance of our approved mission. Neither Public Law 110 nor the proposed Executive Order specifically authorize the Agency to do so. Under my interpretation of our charter, I think such authority is implied, but it may be beneficial to us to have a formal interpretation by either the Office of General Counsel or the Legislative Counsel.
